**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

**Group I**, claim(s) 1-13, drawn to the process for producing microcapsules with UV filter activity.

**Group II**, claim(s) 15-25, drawn to crosslinkable chromophore with UV filter activity.

Deleted: or without

2. The inventions listed as Groups **I-II** do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The common technical feature in both groups is the crosslinkable chromophore with UV activity. This element cannot be a special feature under PCT Rule 13.2 because the element is shown in the prior art by Sakuta et al. (US 5,254,542), see Col. 8, lines 1-65, Col. 9, lines 10-20 and Example 1, Col. 10-12, lines 25-65.

Thus no single general inventive concept exists and restriction is appropriate.

Therefore there is not a special technical feature present which links the claims as defined by PCT Rule 13.2. Accordingly, Groups I-II are not so linked by the same or a corresponding special technical feature as to form a single general inventive concept

3. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows: Claims 17, 18, 19, 20, 21, and 22.

Deleted: 22

Art Unit: 1796

In the event applicant elect Group II, then applicant is required to elect a single disclosed species for claims 17, 18, 19, 20, 21 and 22 for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Specifically, applicant must elect a single species from each of the following groups: Group A (claims 17-18): moiety A; Group B (claims 19-20): the silane; and Group C (claims 21-22): the chromophore. For example, applicant can elect the first structure of claim 18 for Group A

Deleted:

( ), the first structure of claim 20 for Group B, and the first structure of claim 22 for Group C.

Claims 15-17, 19, 23-25 are generic to the following disclosed patentably distinct species. ▾

Deleted:

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 1796

4. The election of an invention may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
